SERIAL NO.: 10/066,847

FILED: February 4, 2002

TITLE: ENERGY FINDING TECHNIQUE AND TYPICAL DEVICE

CASE: BA 22810

SUPERVISING EXAMINER: John R. Le

GROUP: 2881

J12

FINAL REQUEST FOR CORRECTIVE ACTION

Enclosed is the promised Chapter 3 of ANTI-MATTER entitled
Physical Aspects of Anti-Matter.

While it is recognized that the mathematics and physics involved in this application are *far* more demanding than in the typical patent application, the time has now come to call on the Patent Office to comply with its Constitutional Mandate to promote science and either publish the application as filed or, with applicant's help, as a continuation-in-part so the American Public can have specific knowledge of this new and scientifically more correct ENERGY FINDING TECHNIQUE AND TYPICAL DEVICE.

BUCKNAM AND ARCHER

Attorney for Applicant
1077 Northern Boulevard
Roslyn, New York 11576
(631) 427-9322
(516) 365-9802

Respectfully submitted,

Ralph E. Bucknam
